IT WORKS! REPAIR

AGELESS NIGHT CREAM WITH BAKUCHIOL

FREQUENTLY ASKED QUESTIONS

Why should I add It Works! Repair to my skincare routine?

It Works! Repair contains Bakuchiol, an herbal alternative to Retinol that helps slow the effects of aging for your skin with fewer of the harsh side effects than synthetic Retinols, like sun sensitivity, dryness, and redness. It Works! Repair also helps rejuvenate and nourish your skin at night with a burst of hydration, so you'll wake up to smooth, renewed, moisturized skin with an even appearance and texture.

What are some of the key, active ingredients in It Works! Repair?

Some of the key ingredients in It Works! Repair include:

- **Bakuchiol** – A green, herbal alternative to synthetic Retinols that preserves radiant, youthful-looking skin while balancing its tone and complexion. Bakuchiol helps diminish the appearance of fine lines and wrinkles.
- **Gotu Kola** – Helps rejuvenate your skin overnight

When and how do I use It Works! Repair?

It Works! Repair should be applied as part of your evening skincare routine. After washing your face with It Works! Refresh, apply a pea-sized amount of It Works! Repair for nightly rejuvenation. Beautifying botanicals help lessen the appearance of fine lines and wrinkles while evening your skin's appearance and texture, leaving your skin feeling smooth and renewed. Complete your nightly skincare routine with It Works! Radiance for extra, overnight hydration.

Is It Works! Repair formulated for a specific skin type?

It Works! Repair is suitable for most skin types and is perfect for both men and women. Anyone can add It Works! Repair to their skincare routine, but we recommend avoiding using the product on sunburned, damaged, broken, or sensitive skin.
